

COV10 CUTOFF SAW

STANLEY®

V SERIES

January 2014

The COV10 Cutoff Saw is a versatile saw used for cutting metal or masonry materials such as concrete, brick, structural steel, pipe and guard rail. Combine with the COV10C walk behind saw cart to effortlessly score strait and consistent lines in concrete.

Features

- Built in flow control valve for increased ease of use
- Blade brake
- Counterclockwise blade rotation to suppress dust
- Available in two handle types to fit operational preferences
- Walk behind cart available for accurate scoring

COV10141S	Hydraulic Cut Off Saw
COV10C	Saw Cart

ACCESSORIES

Part No.	Description
SL01V	350 mm Metal Cutting Wheel
JP01V	350 mm Diamond Blade

WARRANTY

Stanley Hydraulic Tools and their associated parts are warranted against defects in materials and workmanship for a period of twelve months from the date of purchase. Stanley Hydraulic Tools reserves the right to repair or replace only those parts which prove to have been defective at the time of purchase. This warranty becomes void if maximum flow and pressure ratings are exceeded.

All Stanley Hydraulic Tools, parts, accessories and allied equipment are subject to design improvements, specifications and price changes at any time without notice and with no obligation to units already sold. Weights, dimensions and operating specifications listed herein are subject to change without notice. Where specifications are critical to your applications, please consult Stanley Hydraulic Tools.
